Subject: Cameras at train station

Hello

We are coming to the final stag of the security project for the downtown train station. Can we meet at the downtown train station at 10:30 to dial in the cameras view.

Thanks

Al

Hello

We had a kick off meeting this morning on the Security system to be installed at the CBD train station. We are looking to start the installation on October 1st and complete the work by October 30,2019.

I want to thank your teams for their efforts in conducting foot patrols/extra watches at the train depot. It is always nice when members of the community notice our efforts. Please pass this on to your officers and continue with the regular foot patrols and enforcement.

Hi Bob,

Good morning! I just wanted to let you know I've noticed the increased security at the train station the past few weeks, so I just wanted to say thank you!

Take care,

Carolyn

Carolyn,

The south side of the tracks will be covered by the cameras. We receive many complaints in that area and many bikes get stolen from the bike rack on the south side of the tracks. That area will certainly be covered.

Hi Bob,

Thanks so much for getting back to me! Great to hear cameras are going in, that will certainly help.

Will there also be surveillance coverage on the South side of the tracks? That can also be a vulnerable place getting off the train at night.

Again, thank you so much for your response and hard work, I really appreciate it!

Carolyn

Carolyn,

We certainly will continue the extra watches we have at both Metra Stations for the multitude of violations we have seen in the past and still see. We cited four people yesterday and arrested one for public intoxication and fighting in public at the Front Street Depot. If you see a violation in the future I ask that you call 911 so we can respond and cite the violator. In the near future the front Street Depot will have surveillance cameras covering the entire inside and outside. That will certainly assist us as we will have a live feed at the police department. Please do not hesitate to call me if I can assist any further or you have any other questions.

Hello,

I regularly commute from Wheaton to the city for work. On the weekends, the Wheaton train station becomes camp to a lot of homeless men. This afternoon I was waiting and a man started urinating on the side of the building! They have sleeping bags and equipment and are pretty established there.

Can something please be done? It smells like pee on the platform and as a woman traveling alone it's creating an unsafe situation.

Thank you,

Carolyn

**Subject:** Fw: Asking for information regarding vandalism at downtown train station

For the time period of 4/25/18 - 4/24/19 we had 1 Crim Damage to State Property and 3 Criminal Defacements

We had approximately 51 reports during that time frame and approx. 100 calls for service at 402 W Front Street (not including approx. 600 foot patrols/security checks etc.

He is asking for only cdt and crim defacement. Do you want me to include a description of all reports?

**Subject:** Asking for information regarding vandalism at downtown train station

Good Morning,

I'm currently writing a memo to city council in regards to security cameras being installed at the downtown train station. I was wondering if you could send me some information regarding the vandalism that has occurred there such as; number of calls, incidents, type of vandalism, etc. I want to add some of the statistics to the memo to show why we're installing cameras at the train station.

We would like this to be added to the agenda for the May 6th council meeting. If you could send me the information as soon as possible I would appreciate it.

Thanks!

Hello men

On the southside of the tracks is a attached lay out of the cameras. I would like to see two 4 lens cameras on the southside to cover as much as we can. This would not be a big up charge to change the 2 lens camera to a 4 lens camera.

You know as well as I do we will need that area sometime and we will not have it. So I would like to change it to a 4 lens camera. I have ask for the price difference.

Looks like we will be going on the May 20th council meeting with this project.

Hello Chief

We are going to move the CBD Train Station security camera system up to this year as Metra is willing to split the cost with us up to 50K. I would like to know who would you like to work with on this project going forward. I will have our consultant and e.Norman on the install. I will just need to know if there is a area (problem spot) that we need to make sure we cover.

Thanks
